YOUR HOROSCOPE

by Charles King Cooper

ARIES (March 21 to April 19) Watch errors in judgment in spending and an inclination to be extravagant. Partners may not be in agreement on financial matters. Others may be unsure about it but they still won't let you have your way. It's a time for compromise to insure harmonious interaction.

TAURUS (April 20 to May 20) Whether to work hard or to get away from it all may be a hard decision for you to make now. Try to resist the tendency to indecisiveness. You may meet with some jealousy in the romance/friendship department. Overall, it's not the best time for corporate harmony.

GEMINI (May 21 to June 20) Rather than making business an issue with family members, it may be best to go along with their wishes. Don't have too many irons in the fire. There may be some social type types to deal with now. It's hard to be totally at peace when others are being unsympathetic.

CANCER (June 21 to July 22) There may be some financial complications to deal with now and you won't like one offer of assistance that has some strings attached. Safeguard assets. You may switch sides in the middle of an argument and still find yourself at odds with another person.

LEO (July 23 to August 22) Others may adopt different tactics in an effort to make you change your mind. It's not all that important, but it may be somewhat wearing. Cope. Social life may be a trifle hectic now. Not everyone you meet will be to your liking. Beware of graveyard email talk.

VIRGO (August 23 to September 22) A family member may want to be included at something at which you'd rather be alone. Some compromises are necessary to keep everyone at peace. You can't place too much store in what others have to say now. Unfortunately you'll have to listen to it too.

LIBRA (September 23 to October 22) Some behind-the-scenes hanky-panky puts you in a greater advantage. Don't be in such a rush through that you fail to listen to others carefully. You'll both give and receive now. You believe in what you're doing now, and that is why you are so effective.

SCORPIO (October 23 to November 21) The constant argument of others leaders you ambivalent. There is much that you'll be doing now of a private nature. Research investment matters. You may have to put up with others' idiosyncrasies, but overall, it's a favorable time for social relationships.

SAGITTARIUS (November 22 to December 21) A break comes now but don't drop everything to relax. Quick action is needed to capitalize on an opportunity. Keep a sharp shovel. It's nice to have convertible but don't expect everyone to agree with you. Still you will surround now with or without the support of others.

CAPRICORN (December 22 to January 19) It's one of those times when money makes money. New opportunities bring out your essential coolness. Home matters are also accented in a positive manner. Others agree with you and the given added impetus to your plans for just the time of year.

AQUARIUS (January 20 to February 18) Things move along quickly and positively for you at home and on the job front. Be picky but still remember to get your money's worth. Some good news given you added zest for life and the enjoyment of it. You're the prime mover when it comes to arranging entertainment.

PISCES (February 19 to March 20) Domestic developments are positive, but you may have mixed feelings about having company over. You may find a real bargain for the home. A change in a business appointment just gives you increased time for socializing. Participate in activities and fun events.
